Your Independent Health patients can save substantially on laboratory costs when you refer them to preferred and participating laboratory locations.

To help them save money and avoid paying out-of-pocket by having testing done at out-of-network labs, please refer them to one of the providers on the list below.

The following list of participating laboratories was updated as of November 1, 2017. The list of participating laboratories and the covered services at these locations are subject to change at any time. Not all laboratories participate with all lines of business.

OTHER PARTICIPATING NATIONAL LABS
Not all testing may be covered at these laboratories. If you have questions about whether a certain lab covers a test, please contact Provider Relations at (716) 631-3282 or 1-800-736-5771 prior to utilizing the laboratory or you may be held liable for the cost of the testing.

These laboratories should only be used for testing in the event that the testing being requested is not able to be processed by Quest Diagnostics or one of our participating hospital-based laboratories.
